

Defiance County Fish and Game Club Hunting Rules

Revised 7-4-2009

When you join the Defiance County Fish and Game club, you can have the opportunity for permission to hunt on the land by following these rules. With over 350 members the need for some general rules on land management and safety is a must.

Process to get written permission to hunt the DF&G

Club meeting

Each year, on the 1st Saturday in August and the Defiance Fish and Game meeting in August, the Board of Directors will hold a meeting for any member (in good standing) of the Defiance County Fish and Game who wants to hunt the property during the upcoming hunting season. At this meeting a written permission contract will be given to a member who agrees to follow the rules for hunting on the property. This permission contract will be the written authorization from the Board of Directors to the member to hunt on the land for the season. This permission is good until the following year’s hunting meeting and must be shown upon request to a Board of Director Member, Fish and Game Club officer, or law officer to prove hunting permission has been granted. Any member hunting on the land without written authorization is in violation of Ohio hunting laws punishable by law and could result in loss of membership privileges to the Defiance County Fish and Game Club.

Sign-n-sheet

Each time you hunt you must come into the building foyer and fill out the sign-n-sheet. Print your name, species hunting, section you are hunting (use the property map to find the section letter) on the property and list it along with the hunt time in and out. Be sure to observe the “NO HUNTING” sections.

Deer management

In an effort to increase the size of the bucks on this property, we are implementing a deer management program. In this program Doe are permitted to be shot but bucks must have 4 points on one side to be taken, with the exception of anyone fewer than 18 years of age can harvest any deer regardless of antler size.

Treestands/Ground blinds on the property

With many members using the property all treestands and ground blinds must be removed at the end of each hunt. No screw in tree steps can be used (bow / gun holders excluded) to climb the tree. Any such equipment left on the property will be forfeited and kept by the management.

Permission contract to hunt the Defiance Co. Fish and Game

I agree to follow the above rules and conduct myself in a respectful manner while using this property for hunting. I release the officers and membership of the Defiance County Fish and Game Club from any and all liability for harm to me or my property while hunting the property. I will upon request cease using this property at the request of the board of directors for not following these rules. Permission will terminate on July 31st 2010.
