

Fish and Game Newsletter

It was great to see both familiar and new faces at the January meeting. If you have friends that think they might be interested in joining the Fish and Game, bring them out to a meeting. Even if they are not interested in joining, but would like to attend a meeting, bring them along since guests are always welcome. I want to thank Allan Hansford and Joe Hiler for providing the program at the January meeting and telling us more about their clubs. These are both excellent programs and have much to offer our members.

The still shoot for January has been cancelled and the officers will be discussing the still shoots at our next officer meeting. We have talked about having the still shooters become a club, similar to the rifle & pistol and the Straightened Arrows clubs. If you, or several of you, are interested in organizing a Still Shooters Club, please let any of the officers know.

Meeting Time Change: At the January meeting there was a vote taken to change the meeting time for Fish and Game meetings from 8:00 p.m. to 7:00 p.m. With a program section being added and our desire to get youth and their parents involved, the earlier start time will help.

There is interest being shown for getting the trap shooting range opened again. Right now it is in the early planning stages with a couple of members who are willing to head up the project. If you have interest in helping please let any of the officers know.

There has also been discussion about forming a rifle shooting club. Like the trap shooting, this is currently in an exploratory phase. For more information or to discuss your ideas, please call Lynn Gaylord at 419-782-8437.

There is one remaining 2006 Fish and Game Club Case bone handled knife available. One blade is etched with Ohio Defiance County Fish & Game Club and the other blade has a picture of hunting and fishing and the 2006 year. This comes in a tin commemorative case tin and can be yours for \$75.00. Let Jerry know if you are interested in this becoming yours.

For those of you with internet access, and with many thanks to Chris Stanfield for setting up the site, you can now get much more information about the Fish and Game and the clubs that meet there by going to <http://dcfishandgame.com/> One of the features on the site is a calendar of events that are being held at the Fish and Game which will help members know when the club is rented or special activities are happening.
